

→ Profile

The Aisin Group consists of 160 companies based in 19 countries and has around 73,500 employees. AISIN brings its full capacity to bear on the creation of attractive, high-quality products that are fully in line with the needs of our customers. As well as gaining a status as a worldwide supplier, we are striving to contribute as good corporate citizens to the creation of a prosperous society through manufacturing.

→ Corporate Principles

Based on “Quality First”

① ENHANCED VALUE CREATION

We are committed to contributing to the advancement of society through future-oriented research and development that provides new value for our customers.

② CONTINUOUS GLOBAL GROWTH

We are committed to realizing steady development and growth in the global marketplace by establishing the foundations of our business activities in local values, cultures and customs.

③ HARMONY WITH SOCIETY AND NATURE

We are committed to earning trust as a responsible corporate citizen by valuing harmony with society and nature.

④ INDIVIDUAL CREATIVITY AND INITIATIVE

We are committed to building a work environment that promotes continuous progress by developing the creativity and initiative of individual employees.

Important points concerning future prospects

Current plans, prospects, strategy and convictions indicated in this report in connection with Aisin Seiki Co., Ltd. and its consolidated subsidiaries (hereinafter AISIN) are forecasts of future results unless they are historical facts. These are based on judgments made by senior management at AISIN obtained from information that can be obtained at the present time and they inevitably include risk and uncertainty. It should be appreciated that a variety of factors may result in a situation where the actual results are different from these forecasts. The following are among the risk and uncertainty factors that may have an influence on actual results: 1) Changes in economic

conditions, exchange rates, laws, regulations, policies or political conditions affecting the main business sectors in which AISIN is involved; 2) Environmental changes affecting AISIN's ability and capacity to develop new products in a timely manner and in line with the expectations of customers; 3) Fuel supply shortages, paralysis of traffic functions, strikes, interruption of work, and difficulty of obtaining sufficient manpower in the markets for AISIN products and in regions where parts, materials and equipment are procured; 4) Consequences of fortuitous events. However, factors that may have an influence on results are not exclusively restricted to the above factors.
