【Qualitative Information , Financial Statements

1. Qualitative Information on Consolidated Financial Results

Uncertainties such as oil price increase, and weakness in the economy of the major markets contributed to declining total sales volume in Japan, the U.S., and Europe. But strong sales in the emerging markets such as China and India offset these declines resulting in continued volume increase in the overall worldwide automobile market.
Sales within the Auto Parts segment increased $15.1 \%$ ( $¥ 1,915$. 8billion) compared with the same quarter of the previous fiscal year ( $¥ 1,665$. 1billion) due to clients, production expansions, in addition to aggressive sales activities for automatic transmissions, manual transmissions, car navigation systems, and power sliding doors. Furthermore, sales of the Life \& Energy related products and other business increased $17.3 \%$ ( $¥ 83$. 3billion) compared with the same quarter of the previous fiscal year ( $¥ 71.0$ billion).
As a result, total sales increased $15.1 \%$ ( $¥ 1,999.2$ billion) compared with the same quarter of the previous fiscal year ( $¥ 1,736$. 2billion). Despite higher depreciation and amortization expenses, and R\&D expenses, increase in sales and favorable activities to streamline and raise efficiency in all areas of operations through cost reductions and other measures resulted in a $48.7 \%$ increase in operating income from $¥ 91.8$ billion to $¥ 136$. 5billion. Ordinary income increased 48. $3 \%$ to $¥ 144$. 4billion. (Previous: $¥ 97.4$ billion) Net income increased $51.0 \%$ to $¥ 69.9 b i l l i o n . ~(P r e v i o u s: ~$ $¥ 46$. 3 billion)

## A/SIN

2. Qualitative Information on Consolidated Financial Position
